

Chosen

HEALTH CARE SERVICES, INC.

Chosen Health Care Services, Inc. values life and each person's individual dignity. It is our chosen profession to care for them. As a home care agency, we are committed to providing you with trained, competent and compassionate individuals to care for you and your loved ones.

We are proud to have qualified, experienced and well-trained nurses and aides in our staff. They make it possible for families like yours to keep a disabled or elderly loved one in your home.

Most seniors when they reach a certain age are forced to be confined in a care facility away from family members and the home they love. With Home Care, however, your family can schedule nurse visits for a few hours a day or personal care programs for 24-hour live-in care. It means a great deal to us for you to preserve your health and wellness without leaving your home.
